MR. WEBSTER REMEMBERED.

Fire Force Presents Him with a Watch-His Long Service.

The members of the fire force of the city, as a token of the regard in which ex-Chief Webster is held, presented him last even- Dr. N. L. Wickersham, of Anderson, ing with a handsome gold watch and chain. with a gold ten-dollar piece for a charm. The firemen quietly assembled in Chief Barrett's room at headquarters of the department: Mr. Webster was called from his place at the telephone. He was considerably surprised to find himself suddenly thrust into the center of a room full of firemen and stood expectant 7 while Gideon B. Thompson, a veteran newspaper man, familiarly known to the firemen as "Snacks," made a brief presentation speech. "Web" and "Snacks" often dispute with one another the honor of being the oldest firefighter. Mr. Thompson was or the volunteer force in 1857 and resigned when the department became a paid force. March 31 last was the thirty-seventh anniversary of Mr. Webster's connection with the fire department. Since then he and "Snacks" have been at every fire of any consequence, the latter in following his duries as a newspaper man. The attitude of the two men toward each other last night was that of old friends who have stood side by side for a generation. Mr. Thomp-

"Whether this is an unpleasant task or a pleasant one delegated to me to-night you must be the judge. The members of the fire separtment, embracing the rank and file, have seen fit to intrust to me the task of acquainting you with some matters which may come to you as a surprise. And, that you may not succumb to the weight of grievance against you, the committee has requested me to deal as gently as possible in arraigning you for inspection.

"From young and ardent manhood to vigorous old age you have been closely dentified with the Indianapolis fire department. Men are growing gray in the service whom you antedate. Their early connection with the department, in a retropective view, seems to them like a dream. but a bright, central figure in the foreground of their pioneer days is your own royal-hearted self. In all of the several reations with the department, pipeman, driver, captain, assistant chief, chief fire engineer and what not, throughout these ong years, dating back to March, 1860, without exception you have proven yourself loyal to your friends, honest in management of a city's trust, zealous, watchful, cautious, patient under great tribulation, conservative; in the hour of danger, prudent and courageous.

"It is a pleasure, therefore, to-night to bear witness to these good points, usually lacking in the average man, and say to you, from our heart of hearts, we honor you and we trust you. Those who have but recently joined the department, and who lack the opportunity of knowing you as others know you, will accept the evidence of their mates, and they have joined in procuring this slight token of their esteem, which shall be to you both a memento and a souvenir of your long and faithful service with the department. And now, Mr. Webster, as you sit at your desk, no longer in autocratic control, true, but still in touch with the close and familiar working of this vigorous and rapidly growing fire department, there will lie close to your heart, a throbbing, pulsating, delicate bit of machinery, ticking of life, but with each beat, like your own loyal heart, bearing testimony to the love and fidelity of the boys whose glad contributions have placed the gift within your keeping. Every time you glance at its face, noting the passage of time, let the reflection also appear there of the warm hearts in all of the firehouses in this city, who believe in you, love you and are proud to be

The only regret of the givers is that, while its metal is of pure gold, and its jewels the clearest and best, after all, in their mirrored face, they will fail to properly reflect the deep, earnest, manly attachment which each and every one feels for you est and most lovable of romances, they oin in the toast, 'Here's to your good health, and your family's; may you live Mr. Webster said but little. SWINDLED INDIANA PEOPLE TW YEARS AGO WITH CHECKS.

Could Convert a Small Draft Into One Calling for Hundreds-Strike at Kelly Ax Works.

Special to the Indianapolis Journal. MARION, Ind., April 10 .- Word comes to Charles E. Forgy, of this city, of the arrest of George H. Howard at Jamestown, N. Y. while attempting to negotiate a number of forged drafts. This man, who is also extended fight. known as H. J. Sanford and J. H. Hanford, came to Marion in September, 1895, wrote a draft drawn by the Greensburg National Bank on the Third National Bank of New York city. On the face it called for \$800. Forgy bought it, giving his note for \$450 and a check for the remainder. At Howard's instance Forgy procured a draft character and belonging to an old and wellfor \$1 on Winslow, Lanier & Co., of New | known family. The letters are very vile in York. This draft afterward turned up in the hands of a Terre Haute building and loan association and called for \$750. A short time after Forgy bought the Greensburg draft he was informed by the bank at that place that it had been raised from \$8 to \$800. If the man arrested in New York is the one he is supposed to be, he is wanted at Janesville, Wis., Bloomington, Ill., Lima, O., and Shelbyville for similar transactions. All the drafts so far discovered as having been tampered with by Howard are specimens of very skillful work, except the one purchased by Forgy for \$1 and afterwards raised by Howard to \$750, and that is a wretched specimen of bungling. Howard was arrested by the Pinkertons, and it is supposed that he will be brought here for trial.

Wanted in Fort Wayne.

pecial to the Indianapolis Journal. FORT WAYNE, Ind., April 10 .- J. H. Sanford, now under arrest at Jamestown, N Y., is wanted here for swindling two Fort Wayne banks last September as W. L. Pierce. He cashed a New York draft for \$800 at the Hamilton Bank, and another one at the Nutman Bank of the same amount. Both drafts had been raised from \$8. He will be brought here for trial.
